

Learn to Talk with Animals Workshop Basics

Animal communication is learning the language of animals similar to the ways they speak to each other. That language consists of:

- Images
- Words
- Feelings
- Emotions

Sometimes they send also physical sensations and emotional impressions.

You can learn to hear from all types of animals:

- Horses
- Cats
- Hamsters
- Dogs
- Reptiles
- Amphibians
- Insects
- Birds

Participants will take away, from the Workshop, not only knowledge of the animals but also the ability to talk with and hear from the animals.

Workshop materials will be provided and class size will be limited for easier participation with the instructor/s. Please bring a tablet and pen and wear comfortable clothes. It is necessary that you bring pictures of up to three of each live and deceased animal companions. In order to insure valid information coming through, from your animals, please do not discuss any personal information about your animals with other workshop participants.

Please complete the following registration form and return it with your non-refundable \$50 Deposit to:

Pamela Saylor; P. O. Box 40; Dover, PA 17315 Phone: 717-292-2446
